Acknowledgments

Many persons participated in the diverse activities of the 1980 census. These acknowledgments generally reflect staff during the post-census data publication process. The Bureau was guided by Director, **Bruce Chapman,** and Deputy Director, **C.L. Kincannon.** Primary direction of the data publication program was performed by **William P. Butz,** Associate Director for Demographic Fields, assisted by **Peter A. Bounpane,** Assistant Director for Demographic Censuses, in conjunction with **Barbara A. Bailar,** Associate Director for Statistical Standards and Methodology, **Howard N. Hamilton,** Acting Associate Director for Information Technology, **James D. Lincoln,** then Associate Director for Administration, and **Stanley D. Moore,** Associate Director for Field Operations. The Director's staff was assisted by **Sherry L. Courtland.** Direction of the census enumeration and early processing activities was provided by **Vincent P. Barabba,** former Director; **Daniel B. Levine,** former Deputy Director; and **George E. Hall,** former Associate Director.

Responsibility for the overall planning, coordinating, processing, and publication of the 1980 census was in the Decennial Census Division under the direction of **Stanley D. Matchett,** Chief, assisted by **Rachel F. Brown** and **Roger O. Lepage,** Assistant Division Chiefs. The following Branch Chiefs were responsible for support services; **Donald R. Dalzell, H. Ray Dennis, Stephen E. Goldman, Dennis W. Stoudt,** and **Richard R. Warren.**

Responsibility for developing the population portion of the 1980 census questionnaire content and designing the tabulations was in the Population Division under the supervision of **Roger A. Herriot,** Chief, **Paula J. Schneider,** Staff Assistant for Census Programs, **Gordon W. Green, Jr., Nampeo D. McKenney,** and **Arthur J. Norton,** Assistant Chiefs. Important contributions were made by the following Branch and Staff Chiefs; **Patricia A. Berman, Edward W. Fernandez, Philip N. Fulton, John M. McNeil, Martin O'Connell, George F. Patterson, Thomas S. Scopp, Paul M. Siegel, Robert C. Speaker, James A. Weed,** and **Arno I. Winard.** Also contributing was **Cynthia M. Taeuber.**

Responsibility for developing the housing portion of the 1980 census questionnaire content and designing the tabulations was in the Housing Division, under the supervision of **Arthur F. Young,** Chief, **Leonard J. Norry,** Assistant Chief, and **William A. Downs,** Branch Chief; assisted by **Robert W. Bonnette, Theresa R. Boyd, Sherry A. Briscoe, Imelda M. Johnson,** and **Gregory K. Sprowls.**

Administration support was provided by the Administrative Services Division, **Robert L. Kirkland,** Chief, and **William C. Fanning,** Assistant Chief.

Computer processing was performed in the Computer Operations Division, **C. Thomas DiNenna,** Chief, **James E. Steed, George M. Bowden,** and **Joseph J. Sferrella,** Assistant Chiefs.

Questionnaire processing procedures were developed in the Decennial Processing Staff, **James S. Werking,** then Chief, under the direction of **Harry O'Haver,** then Assistant Chief. The clerical coding and microfilming of the sample questionnaires were performed at three decennial processing locations as follows: Data Preparation Division, **Don L. Adams,** Chief; Jeffersonville Processing Office, **Robert L. Kirkland,** then Processing Manager; New Orleans Processing Office, **Robert L. Allen,** Chief; and Laguna Niguel Processing Office, **Robert N. Scheller,** Chief.

User services were provided by the Data User Services Division under the supervision of **Michael G. Garland,** Chief, **Marshall L. Turner, Jr.,** and **Paul T. Zeisset,** Assistant Chiefs.

Data collection activities were supervised in the Field Division by **Lawrence T. Love,** Chief, under the direction of **Richard Blass, Charles Hancock,** and **George T. Reiner,** Assistant Chiefs, with the assistance of the directors and assistant directors of the Bureau's regional offices.

Geographic programs and plans were developed in the Geography Division under the direction of **Joseph J. Knott, Robert W. Marx,** and **Silla G. Tomasi,** Assistant Chiefs, and **Donald I. Hirschfeld.**

Publications editing, design, composition, and printing procurement were performed by the staff of the Publications Services Division, **Raymond J. Koski,** Chief; **Milton S. Andersen, Arlene C. Duckett,** and **Gerald A. Mann,** Branch Chiefs.

The Statistical Methods Division was largely responsible for weighting sample data and producing variance estimates. This work was supervised by **Charles D. Jones,** Chief; **Susan M. Miskura** and **Robert T. O'Reagan,** Assistant Chiefs. Important contributions were made by **David H. Diskin, Milton C. Fan, Thomas W. Harahush, Robert S. Jewett, J. Kim, Teresa A. Passalacqua, John H. Thompson,** and **Henry F. Woltman.**

The system design, technical specifications, assembly, and installation of the FOSDIC and Automated Camera Technology System were the responsibility of the Technical Services Division, **C. Thomas DiNenna,** Acting Chief, and **Robert J. Varson,** Branch Chief.

Many other persons participated in the various activities of the 1980 census. For a list of key personnel, refer to the *History of the 1980 Census of Population and Housing,* (PHC80-R2).

Introduction

GENERAL. VIII
CONTENTS OF THE REPORT . . . VIII
SYMBOLS AND GEOGRAPHIC ABBREVIATIONS IX
SUPPRESSION OF DATA FOR CONFIDENTIALITY. IX
1970-1980 CENSUS TRACT COMPARABILITY IX

GENERAL

This report is part of the *Census Tracts* series and presents demographic, social, economic, and housing statistics for census tracts from the 1980 Census of Population and Housing. Legal provision for this census, which was conducted as of April 1, 1980, was made in the Act of Congress of August 31, 1954 (amended August 1957, December 1975, and October 1976), which codified Title 13, United States Code.

The *Census Tracts* series consists of an individual report for each standard metropolitan statistical area (SMSA) and for each State in which census tracts have been delineated outside SMSA's. A listing of all the reports in this series appears on pages v-vii. The abbreviated identification for each report is PHC80-2 (i.e., *Population and Housing Census,* 1980, Series 2), followed by a number designating the SMSA or State which the report covers.

In the SMSA reports, the tract data are summarized to the following larger levels of geography: the SMSA, each State portion of multi-State SMSA's, counties or county equivalents (SMSA county portions in New England), incorporated places of 10,000 or more inhabitants, and most census designated places (CDP's) of 10,000 or more inhabitants. In the State reports, summaries are shown for the tracted portion of the State outside SMSA's, counties or county equivalents (nonSMSA county portions in New England), incorporated places of 10,000 or more inhabitants, and most CDP's of 10,000 or more inhabitants. For an explanation of CDP's not shown in the SMSA or State reports, see appendix A.

For census tracts which are split by the boundary of a place of 10,000 or more, the appropriate portion is shown within the place or balance of county, with the symbol "p" following the tract number. Totals for these "split" tracts appear at the end of the portion of each table for the relevant county.

The 1980 census figures presented here may differ from those shown in the *Advance Reports,* PHC80-V, and in the Public Law 94-171 redistricting data products. The changes reflect corrections of errors found after the PHC80-V reports and P.L. 94-171 materials were prepared. The changes may affect any geographic area shown in this report.

The content and procedures of the 1980 census were determined after evaluation of the results of the 1970 census, consultation with a wide variety of users of census data, and extensive field testing. A number of changes were introduced in 1980 to improve the usefulness of the census results. The changes do not, however, affect to any appreciable extent the comparability between 1980 census data and 1970 census data for most characteristics. Further information on comparability for specific subjects appears in Appendix B, "Definitions and Explanations of Subject Characteristics."

More detailed information on the technical and procedural matters covered in the text of this report can be obtained by writing to the Director, Bureau of the Census, Washington, D.C. 20233. Such information will also appear in other publications of the 1980 census.

CONTENTS OF THE REPORT

This report contains text (this introduction and six appendixes), a table of contents, and 39 detailed tables. Information on changes in the boundaries of census tracts between 1970 and 1980 for the area covered in this report is shown at the end of this introduction. The tract comparability table shows 1970 components of 1980 tracts and 1980 components of 1970 tracts, as relevant, for (1) 1970 tracts that were split into two or more 1980 tracts; (2) 1970 tracts that were combined into new 1980 tracts; (3) 1970 tracts in areas with new tract numbering systems for 1980; and (4) those tracts with boundary changes between 1970 and 1980 that affected 100 or more persons. A census tract will not appear in the comparability tables if no change occurred between 1970 and 1980 or boundary revisions affected fewer than 100 persons and that was the only change that occurred to that tract.

Tables P-1 through P-7 present data on general population characteristics based on tabulations of 100-percent data; tables P-8 through P-21 present data on social and economic characteristics based on sample tabulations. Tables H-1 through H-6 show 100-percent housing data and Tables H-7 through H-18 show sample housing data.

Appendix A describes the various area classifications (e.g., incorporated places, standard metropolitan statistical areas). Appendix B provides definitions and explanations for the subjects covered in this report. Appendix C explains the residence rules used in counting the population and describes the data collection and processing procedures. Appendix D presents information on the sources of error in the data and describes the editing procedures. Appendix E contains

a facsimile of the respondent instruction guide and the 1980 census questionnaire. Appendix F summarizes the data dissemination program of the 1980 census.

Maps which show the boundaries and identification numbers of census tracts in the area covered by this report are available for purchase but are not included with the report. State, county, county subdivision, and place names and boundaries are also shown on these maps.

SYMBOLS AND GEOGRAPHIC ABBREVIATIONS

The following symbols and geographic abbreviations are used in the tables:

- A dash "–" represents zero or a percent which rounds to less than 0.1.
- Three dots ". . ." mean not applicable, or that the data are being withheld to avoid disclosure of information for individuals or housing units. (For further information on disclosure, see the section below on "Suppression of Data for Confidentiality.")
- A "p" next to a tract number indicates a tract split by the boundary of a place of 10,000 or more.
- A "(pt.)" next to a place name indicates a place that is split by a county boundary.
- CDP is census designated place.
- SMSA is standard metropolitan statistical area.

SUPPRESSION OF DATA FOR CONFIDENTIALITY

To maintain the confidentiality promised respondents and required by law, the Bureau of the Census takes precautions to make sure that its published data do not disclose information about specific individuals and housing units. To accomplish this, the Census Bureau suppresses data for characteristics which are based on a small number of persons and/or housing units in the geographic area. Under certain conditions, both primary and complementary suppression, as defined below may take place.

The general rules of primary suppression of complete count (100-percent) data are as follows: counts of total population by race and Spanish origin are never suppressed; other characteristics for persons are shown only if there are 15 or more persons in the geographic area; counts of total housing units, vacant housing units, year-round housing units, and occupied housing units are never suppressed; characteristics of year-round housing units which are not classified by occupancy status are shown only when there are five or more year-round housing units in the geographic area; characteristics of families, households, or occupied housing units are shown only if there are at least five occupied housing units within the geographic area; and distributions of data for owners or renters are shown only where the number of owners is at least five and the number of renters is also at least five. These primary suppression criteria are applied independently of one another. The comparable figures for sample data are 30 or more persons or 10 or more housing units of the specified type.

Population and occupied housing unit characteristics cross-classified by race or Spanish origin (of the householder in the case of occupied housing units) are subject to an additional level of scrutiny. This level requires the 15 (30) person or 5 (10) housing unit criterion be applied individually to each race or Spanish origin category.

Finally, complementary suppression is applied to prevent the derivation of primary suppressed data by subtraction.

1970-1980 CENSUS TRACT COMPARABILITY

Table A, "Tract Comparability: 1980 to 1970," appears on the next page. Table B, "Tract Comparability: 1970 to 1980" has been omitted because all the area comprising the Nassau-Suffolk, N.Y., SMSA was a part of New York, N.Y., SMSA in 1970. Refer to PHC80-2-260, *Census Tracts, New York, N.Y.-N.J., Standard Metropolitan Statistical Area,* for 1970 to 1980 comparability data.

Table A. Tract Comparability: 1980 to 1970
